

Come celebrate World Firefly Day on July 2-3, 2022!

THEME: Let's stay together in the challenging world

**FIREFLYERS
INTERNATIONAL
NETWORK**

Human activities worldwide challenge all wildlife,
including **the humble firefly.**

Habitat loss, light pollution, pesticide use, over-collecting,
and lack of awareness are all challenges fireflies face.

To solve the human-firefly conflict, we must learn
how to live in harmony together!
